

## Let The *Field Trip* Adventure Begin

---

A School Tour at the Bushplane Museum is fun and educational. Students enjoy hands-on experiential learning that meets the needs of the teacher and, if desired, the curriculum. Let us bring the theory of flight to life or inspire your budding aviators!

### **Self Guided Field Trips**

---

Bring your class to the Bushplane Museum to discover the history and development of bushplanes and forest fire management in the North. This tour is entirely self-guided and provides admission to the museum only. Space for nutrition breaks and visits to Entomica are not included.

**\$ 5.00 per student**

### **Curated Tour**

---

This guided experience includes an age-appropriate 45-minute guided tour of bushplane history and development, a private viewing of Wildfires, and as much free time to explore as you like. This tour is not curriculum-based. We are happy to organize space for a nutrition break.

**\$8.85 per student**

### **Curated Curriculum-Based Tour**

---

Tour + hour of educational programming The Canadian Bushplane Heritage Centre Education Team can program curriculum-based learning for grades K-8. Students will receive a tour incorporating components of the Ontario Curriculum for the appropriate grade level and will explore concepts of history, science, math, engineering and technology through experimentation, art and other hands-on activities. Curriculum-based School Tours include a 45-minute guided tour, a viewing of Wildfires and an hour of curriculum-based programming. We are happy to organize space for a nutrition break. See grade-specific curriculum programming.

**\$10.62 per student**
