How Far We Have Walked

As of February 15th, we have walked a collective total of **3589.8km.**

We made it to Shebandowan and are now on our way to Caribou Lake! We are only **574.2km** away from Caribou Lake!

Walking is the ultimate travel adventure. You never know where your feet will take you.

Next Stop - Caribou Lake

The airbase was established in 1928, starting with a single H-Boat assignment. Caribou Lake is referenced during a story about the salvage of an Avro Anson in the 1940s, but only as a pitstop to feed some hungry stranded pilots.

Walker of the Week!

Meet our Walker of the Week: Ray Blum

Congratulations to Ray Blum, our Walker of the Week at the Bushplane!

Ray impressively averages 10 laps per visit, demonstrating his dedication to maintaining his health. He's a regular fixture here, drawn not only by the exercise but also by his fascination with the array of aircraft on display.

Ray's favorite walking partner is none other than his beloved wife, Penny, who joins him on his outings. When he's not exploring the Bushplane, Ray indulges in his passion for wood carving, a hobby that undoubtedly keeps his creative spirit soaring. Here's to Ray, an inspiration to us all!

55+ Yoga with Strong Minds is Back!

We will have Amanda from Strong Minds back by popular demand with our 55+ Yoga.

Dates: March 6, 13, 20, 27

Time: 1-2pm

Fee: Free for Members and \$20.00 plus tax for non-members

>>Sign up on our website or at the front desk.
